EXECUTIVE SUMMARY

Junior Web Developer with 1 year of professional experience in designing, developing, and maintaining responsive web applications using PHP, MySQL, JavaScript, HTML5, CSS3, Bootstrap, React, Next.js, TypeScript, and Tailwind CSS. Experienced in building end-to-end business solutions from requirement analysis to deployment, including PG Management System, DJ Event Planner, Company Website, Portfolio Website, and Employee Management System. Skilled in database design, REST API development, authentication, performance optimization, and responsive UI development. Proficient in Git, GitHub, and modern web development practices, with a strong passion for building scalable, user-friendly, and high-performance web applications while continuously learning new technologies.

CORE SKILLS

Technical Skills:

- Frontend: HTML5 | CSS3 | JavaScript (ES6+) | TypeScript | React 19 | Next.js 15 (App Router) | Tailwind CSS | Bootstrap 5 | Responsive Design | Mobile-First UI
- Backend: PHP | Next.js API Routes | REST APIs | Authentication | CRUD Operations | Java basic
- Database: MySQL | PostgreSQL
- Version Control & Tools: Git | GitHub | Visual Studio Code | XAMPP

PROFESSIONAL EXPERIENCE

Junior developer | THE ATOM, India | Mar 2025 – Present

Junior Web Developer

The Atom Chennai

Responsibilities

- Developed and maintained responsive web applications using PHP, MySQL, JavaScript, HTML5, CSS3, Bootstrap, React, and Next.js.
- Designed and implemented mobile-first, user-friendly interfaces to enhance user experience across desktop and mobile devices.
- Built and maintained complete business applications, including PG Management System and DJ Event Planner, from requirement analysis to deployment.
- Developed secure authentication, role-based access control, and RESTful APIs for scalable web applications.
- Designed and optimized MySQL databases, improving query performance and ensuring data integrity.
- Integrated third-party services and APIs, including Supabase authentication, file storage, and WhatsApp sharing where required.
- Fixed production bugs, optimized application performance, and implemented new features based on client requirements.
- Used Git and GitHub for version control, code management, and team collaboration.

PROJECT SNAPSHOT

Project #1: The Atom - Company Website (HTML, CSS, JS, PHP, MySQL)

- Built the company website from scratch using PHP and MySQL, ensuring responsive design and robust and functionality
- Optimized website performance, improving load speed and SEO structure for better visibility
- Managed ongoing maintenance, implementing UI/UX improvements and site updates

Project #2: DJ Event Planner (Next.js, React, TypeScript, Tailwind CSS, Supabase)

- Developed a complete event planning and workforce management system to streamline DJ event scheduling, employee assignments, setup allocation, vehicle management, and rental operations.
- Implemented modules for event management, customer management, invitation uploads, setup inventory, vehicle allocation, staff assignment, WhatsApp event sharing, and calendar-based scheduling.
- Built intelligent resource planning with real-time availability tracking and conflict detection to prevent double bookings of employees, DJ setups, and vehicles.
- Designed a mobile-first Progressive Web App (PWA) with an intuitive user interface, delivering efficient event planning and seamless business operations.

Project #3: PG Management System (PHP, MySQL, JavaScript)

- Developed a complete web-based PG Management System for managing tenants, rooms, payments, food menus, complaints, and announcements.
- Implemented secure role-based authentication for administrators and tenants.
- Designed responsive dashboards with analytics and reporting for efficient property management.
- Built CRUD modules, file uploads, payment tracking, and notification features using PHP and MySQL.
- Optimized database queries and application performance for a smooth user experience.

EDUCATION

- Bachelor of Science (Information Technology)
Guru Nanak College, Chennai, India | June 2021 – May 2024 | CGPA: 7.0

CERTIFICATIONS

- Java Full Stack – Besant Technologies
-
