AKASH B

Junior Full-Stack / Web Developer

Chennai, India • +91 8248590767 • akashit2408@gmail.com • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Results-driven **Full-Stack Web Developer** with 1.5+ years of hands-on professional experience engineering responsive, high-performance web applications using **React 19, Next.js 15/16 (App Router, RSC), TypeScript, Tailwind CSS, Prisma ORM, Supabase/PostgreSQL, MariaDB/MySQL, and AI APIs (Gemini 2.0)**. Proven expertise translating complex business workflows into scalable production platforms—including commercial corporate portals, AI health platforms, and venue POS systems. Adept at building secure RESTful APIs (RBAC, Razorpay Webhooks), tuning database queries for sub-2-second page loads, and delivering seamless mobile-first user experiences.

TECHNICAL SKILLS

Frontend:	React 19, Next.js 15/16 (App Router, RSC, SSR/SSG), TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Bootstrap 5, PWA, Mobile-First UI
Backend & APIs:	Next.js API Routes, Prisma ORM, RESTful APIs, Razorpay API, Gemini 2.0 Flash AI, Firebase (FCM), Supabase Auth (JWT), RBAC, PHP, Core Java
Databases & Cloud:	PostgreSQL, MariaDB, MySQL, Supabase (Database, Auth, Storage, RLS), Relational Schema Design, Query Optimization, Vercel Cron, XAMPP
Tools & AI Agents:	Coding Agents (Antigravity, Claude, Codex), Git, GitHub, VS Code, Postman, Vercel Deployment, Agile / Scrum, Performance & SEO

PROFESSIONAL EXPERIENCE

Junior Web Developer — The Atom (Chennai, India) **March 2025 – Present**

Tech Stack: Next.js 15, React 19, TypeScript, Tailwind CSS, PHP, MySQL, PostgreSQL, REST APIs, Git

- Architected and delivered responsive full-stack applications with **Next.js 15, React 19, PHP, and MySQL**, improving multi-device responsiveness and UX engagement across client production deployments.
- Engineered reusable component systems using **TypeScript and Tailwind CSS**, achieving consistent 95+ Google Lighthouse audit scores and sub-2-second initial page load speeds.
- Designed and documented secure **RESTful APIs** implementing Role-Based Access Control (RBAC) and Supabase/JWT authentication to safeguard internal and client-facing endpoints.
- Optimized relational database schemas and indexed SQL queries in **MySQL and PostgreSQL**, reducing complex query execution times by 40% and maintaining absolute data integrity.
- Integrated third-party cloud services including Supabase storage and automated WhatsApp messaging webhooks, minimizing manual administrative tasks by 60%.

TECHNICAL PROJECTS

The Atom — Corporate Digital Presence **theatom.biz**

Tech Stack: HTML5, CSS3, JavaScript, PHP, MySQL, SEO Architecture

- Engineered corporate digital presence from scratch, implementing responsive semantic UI and mobile-first ergonomics.
- Optimized asset loading, image delivery, and structured meta-tags, cutting total page weight by 45% and boosting SEO discoverability.

GrindLog — AI-Powered Fitness, Workout Execution & Nutrition Platform **GitHub • grindlog.in**

Tech Stack: Next.js 15, React 19, TypeScript, Tailwind CSS, Supabase (PostgreSQL), Gemini 2.0 Flash, Razorpay API, PWA

- Engineered an end-to-end fitness OS and PWA featuring adaptive 7-day workout split generation, live set-by-set execution, USDA macro logging, and computer-vision body scan assessments.
- Architected a zero-waterfall Next.js 15 RSC data layer using parallel Promise.all batching and Suspense streaming skeletons to achieve sub-50ms state resolution and 0ms optimistic tab switching.
- Integrated Razorpay billing with HMAC-SHA256 verified webhooks, Firebase Cloud Messaging (FCM) automated push notifications via Vercel Cron, and Supabase Row Level Security (RLS).

Dark Syndicate — Gaming Arena & Venue Operations Platform **GitHub • darksyndicategw.com**

Tech Stack: Next.js 16, React 19, TypeScript, Tailwind CSS, Prisma ORM, MariaDB, Razorpay API, PWA

- Engineered an end-to-end esports arena & lounge operations platform managing real-time station inventory, online slot reservations, front-desk walk-in POS, and dynamic pricing across PlayStation 5 stations and snooker tables.
- Built an active floor-timer and session engine supporting live duration extensions, extra player add-ons, audio session expiry alerts, and atomic multi-mode split payment processing (Cash + UPI) with Razorpay integration.
- Architected a portal-scoped Progressive Web App (PWA) with offline resilience, Web Push notifications, and secure multi-tier RBAC (Admin, Staff, Customer), complete with financial audit ledgers and analytics exportable to CSV.

EDUCATION & CERTIFICATIONS

B.Sc. in Information Technology — Guru Nanak College (Chennai, India • CGPA: 7.0 / 10.0) **June 2021 – May 2024**

Java Full Stack Development Certification — Besant Technologies (Chennai, India) **Credential**
